

NCAA Division I Academic Progress Rate Compilation Report

Institution: Ohio State University

Date of Report: 8/22/05

The following chart represents a breakdown of the overall and by-sport APR averages for noted subgroups. It is provided to permit institutional administrators to compare rates with various subgroups by sport.

[Note: It is important to note that all information contained in this report is for one academic year only. This may lead to very small sample sizes within certain sport groups. Because of that, the NCAA will not be using these data alone for the purpose of rewarding or penalizing institutions and the reader should use the data with caution. Eventually, the NCAA anticipates reporting data only on the basis of a four-year rolling rate for all sports.]

* Denotes data representing three or fewer student-athletes - In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report regarding students in cells including three or fewer students without student consent.

N/A = No APR

N = Number of teams reporting

Percentile Rank - 0 to 100; 0 = low, 100 = high

+ Teams with this symbol have an estimated APR upper confidence boundary of 925 or above, even though the team's actual APR is below 925. It is anticipated that some smaller squads that may be identified as underperforming in this year's reports will not be subject to penalty once the confidence boundary is applied.
