

NCAA Division I 2005 - 2006 Academic Progress Rate

Public Report

Institution: George Mason University

Date of Report: 04/30/2007

This report is based on academic progress rate (APR) information submitted by member institutions for the 2003-04, 2004-05, and 2005 - 2006 academic years.

[Note: All information contained in this report is for three academic years only, unless otherwise noted. This may lead to very small sample sizes within certain groups. The NCAA anticipates reporting data only on the basis of a four-year rolling rate for all sports when four years of data are available.]

*In accordance with FERPA's interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol.*

The following chart represents by sport APR averages for noted subgroups.

Sport (N)	Multiyear APR	Percentile Rank within Sport	Percentile Rank within All Sports	All Division I	Public Institutions	Private Institutions	Football Bowl Subdivision	Football Championship Subdivision	Division I

* Denotes data representing three or fewer student-athletes - In accordance with FERPA's interpretation of federal privacy regulations, these data are not available.

N/A = No APR

N = Number of teams reporting

Percentile Rank: 0 to 100; 0 = low, 100 = high

^ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body or based on institutional, athletics and student resources.

+ Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustments will be eliminated when the fourth year of APR data is collected, provided the team's multiyear cohort includes 30 or more student-athletes.

@ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

~ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. Squad-size adjustments will be eliminated when the fourth year of APR data is collected, provided the team's multiyear cohort includes 30 or more student-athletes.

% Denotes APR based on a one year cohort, not subject to a historical and/or contemporaneous penalty.

! Denotes APR based on a two year cohort, not subject to a historical penalty.
